## No Waste Motion Here

The packing business is noted for the elimination of waste in manufacturing.

Swift & Company is equally effective in saving waste in the distribution of products.

From ranch or farm to your meat dealer there is no loss of time, money, material,

Four hundred branch sales houses in large cities and towns, hundreds of regular refrigerator car routes reaching small towns, all directed by wire from a central point, bring meat products from our packing plants located in producing areas, to retailers in all parts of the country in the best possible condition, in the least possible time, at the least possible cost, and over the most direct route.

The total expense, for manufacture, freight, and selling direct to the retailer, is less than three cents per pound on all meat sold.

Our profit from all sources is only a fraction of a cent per pound.

Competition compels this close-cut saving. Large volume of business, a well-balanced, nation-wide organization, and expert attention to details by men who know, make it possible.

We are in your service—at least expense and profit.
